About Us

Integral Designs was established in 1994 with the main objective of providing high quality sustainable landscape design services. Integral designs is headed by Ar.Samir Mathur, a landscape architect who has done his masters program at the university of Massachusetts at Amherst, USA along with Er. Bela Mathur an electrical engineer who has done her specialization in electrical system & lighting design.

What started as a small office of 4 people has now blossomed into a flourishing firm of over 60 professionals. Our dedicated team comprising of landscape architects, architects, horticulturalists, engineers and 3D artists , work together to ensure complete design solutions from conception to execution.

With our head quarters in New Delhi, we now have offices in Kanpur and Mumbai.

Over the past 20 years, We have had the good fortune to work with eminent builders and top design firms. Some of our current clients include DLF, Bestech, Ireo and Godrej. With projects spanning India, we are leading the way in design innovation and environmental planning.

We work in tandem with architects, to provide a one stop solution for all landscaping and MEP needs.

Prof. Mathur is also associated with academics, teaching at the School of Planning and Architecture, New Delhi. Landscape related research is an intrinsic part of the studio. He has presented research papers at various International and National venues. His work in Masterplanning of cities along the Yamuna riverfront was presented as a paper on ‘Greenways in India’ at the Fabos Conference on Landscape and Greenway Planning at Amherst, USA (2013). His design philosophy respects local traditions and environmental factors to maximize the inherent potentials of the site and architecture. He is an International member of the American Society of Landscape Architecture (ASLA), Executive Committee member at the Indian Society of Landscape Architects (ISOLA), Delhi Chapter, a member of the Heritage Conservation Committee, Government of India and a member of the Delhi Urban Arts Commission (DUAC).
Other Professional Involvements

National Building Code 2016
Integral Designs has played an integral part in drafting the landscape guidelines for the new National building code 2016. The National Building Code of India (NBC), a comprehensive building Code, is a national instrument providing guidelines for regulating the building construction activities across the country.

Heritage Conservation Committee
Samir Mathur is an active member of the Heritage Conservation Committee since 2013. Heritage Conservation Committee (HCC) is a committee setup under the chairmanship of Special Secretary / Additional Secretary, Ministry of Urban Development as per provisions of Section 23 in Delhi Building Byelaws, 1983(Clauses 7.26 of the Unified Building Bye Laws for Delhi 2016) for protection of Heritage Buildings, Heritage Precincts and Natural features in Delhi.

Delhi Urban Arts Commission
Samir Mathur is also a member of the Delhi Urban Arts Commission. Delhi Urban Art Commission, set up in May, 1974 is mandated with preserving, developing and maintaining the aesthetic quality of urban and environmental design with in Delhi. The Commission scrutinizes various building and engineering proposals from the perspective of city aesthetics and advices urban local bodies like the Delhi Development Authority, New Delhi Municipal Committee and the three Municipal Corporations of Delhi. It also initiates studies on development and beautification of any areas in Delhi.

School of Planning and Architecture
An active member in academia, Samir Mathur has been visiting professor at the School of Planning and Architecture since 2000. The past 17 years, he has taught many graduating batches of masters students at the landscape department. He frequently is invited as a jury member across Delhi colleges.
